## 110 AND 111 LAA BTY RAA

**A reunion of Gunners** who served in either 110 and 111 Bty RAA during these units' deployment into the Indonesian Confrontation was held in Perth WA from 15–20 October 2017. **111 Bty RAA** was uplifted from Holsworthy on 24 May, 1964, on board HMAS Sydney 111 and deployed around Butterworth RAAF Base from 12 June 1964 till June/July 1966 and detachments to 3RAR for Thai border operations. For the record, this troop movement included 7 Field Sqn RAE, a RAASC Amphibious unit and five additional Iroquois helicopters for 5 Sqn RAAF. It was the first troop movement by HMAS Sydney after being converted to a troop transport, into a hostile area. **110 Bty RAA** relieved 111 Bty in July 1966 and remained till 1968, returning to Woodside SA when 16 Air Defence Regt RAA was formed. The former members from both Batterys were able to join several well organised events and functions starting with the Meet n Greet, Dolphin Cruise, SAS barracks visit, the RAAF Museum, the formal Dinner and plenty of free time to look around Perth. **Congratulations** to all who were involved in organising the function...*banyak bagusla...*

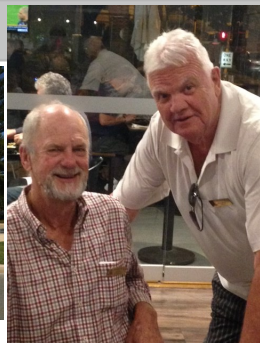

**NEXT REUNION**

**During the Farewell Dinner**, a decision was made to conduct the **2018 Reunion** in Adelaide, possibly in November, probably over a 5 day window. It is yet to be planned in detail, however, it is an opportune time for the SA NT Branch and the rebadged Air Defenders Association to put a function together.....and possibly include input and assistance from 16 ALR Regiment RAA based at Woodside.....remembering that the Regiment was originally formed by 111 and 110 Batteries in 1968; a Fifty year anniversary which will coincide with the 60th Birthday of 111 Bty RAA.....stay on the net....

## AUSTRALIAN WAR HORSE

Every AIF Unit raised and deployed into the WW1 theatres of action, had "Walers" as part of the unit establishment. These horses were a particular breed which had been developed to be able to withstand the Australian outback conditions of heat and rough terrain that was the makeup of the Australian undeveloped bush during the 19th and 20th centuries.

A total of 136,000 "Walers" were exported to all theatres between 1914–1918. Only one was returned to Australia..."Sandy" was the mount for MAJGEN W T Bridges, KIA Gallipoli.

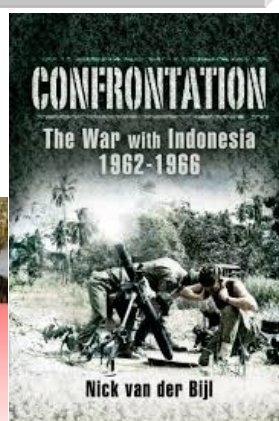

The orders given to the Light Horsemen in Egypt and Palestine to hand over their horses to the local peasants was not received well by every surviving Light Horseman because they had seen first hand just how cruel and badly these people treated the horses, camels and donkeys native to those countries.....it is not recorded to any length, however, legend has it that many hundreds of the "Walers" were quietly and gently put to sleep by the men for whom they had so unquestionably served in horrific battles, including Es Salt, Amman, Ziza, Megiddo, Rafa, Gaza and Beersheba....to avoid being put into a life of utterly unacceptable horror.

## For Your Library.....

### Indonesia and Malaysia

- President Sukarno was against the formation of Malaysia in 1963, claiming that much of the land and islands being incorporated into Malaysia was actually supposed to be Indonesian.
- Indonesia declared its policy of *konfrontasi* (confrontation), which was close to a declaration of war.
