## ANZAC TRADITIONS

**WHAT** does ANZAC mean to you and your family ? There are quite a number of answers that are very appropriate and in some instances, personal in nature.....the direct link to that era of our history no longer exists, there are no living veterans in Australia, or, in New Zealand.

The legacy of those men and those women does exist in several tangible ways. The original concept of the modern day RSL began as the idea of men who had been returned to Australia after action in the deserts of Mesopotamia and in the disaster of Gallipoli. The carnage of the Somme, Belgium and France had only just begun, no one could foretell the horrors yet to be seen and experienced from 1916–1918. On the Somme alone, over 1 million casualties would be suffered by the Allies, mainly Australian, NZ, Canadian and British troops.

The impact of Gallipoli on the Aus-

tralian Army can be seen in the context of the destruction of the Light Horse Regiments accounting for the bulk of the 8000 men who were KIA, or, WIA in a 9 months window, and those Regiments never being reformed again.

The impact on the families of the men who would never come home became apparent, very noticeably to some men with compassion and empathy, and who had seen first hand what *the Great Adventure* had really become.....these families included hundreds of children, who now had no fathers and no means of financial support. There was no Welfare System to help and no concept of one in the foreseeable future.

The idea of a mutual support society had been born and it manifested as The Returned Soldier's and Sailor's Imperial League of Australia in 1916/17 in Sydney.

The men who started the RSSILA had a vision that was unique in the world. Nothing elsewhere comes close to this organisation. At the end of WW2, the name changed to include the RAAF as *Returned Soldier's, Sailor's and Airmen's Imperial League of Australia*. In recent times a likeness of a WW2 service woman has been added to the image.

The organisation name is now the *Returned and Services League* and it is still unique in the world. The desire to never forget the men and women who were lost is evident in every country town and city in Australia...memorials pay tribute to the wars Australia has always volunteered to be of assistance with, from the 1898 Boer War, WW 1, WW2, Korea, Malaya, Malaysia, Borneo, SVN, Somalia, PNG Bouganville, the Gulf, East Timor, Iraq and now Afghanistan. The seeds of patriotism, *page 3..*

## PADRE'S STOLE

**The Padre's stole** that will be used at all official ceremonies was blessed and consecrated at a ceremony conducted by our Padre, Capt Quentin Castle on Sunday, 4 December 2011.

The first official use was at the inaugural Malaya & Borneo Veterans' Day on 31 August 2011. The next official use will

ANZAC Day, possibly 21 April, at a semi formal lunch function. Details will be firmed up and members advised in the meeting minutes after the 17th February Branch General Meeting.

Stay on the net and put the date in your diary. The idea will be a first for the Branch and add to the list of events we have in SA.

## IDEAS WANTED

The idea has been put that we could consider having a couple of luncheons during the year at venues where a meal is available and also consider incorporating a particular anniversary of an event that was of some importance between 1948 and 1983 in Malaya ? Over.....

**NEW ERA IN SOLDIER CARE**

**The new** Lone Pine Soldier Recovery Centre has been opened in Robertson Barracks Darwin NT. It is a purpose built facility that specialises in the care of soldiers and support for their families including rehabilitation and transition. The soldier recovery centre delivers world's best practice for all the necessary elements associated with medical and rehabilitation phases to return to unit, or, to move into another role.

**The centre** is named after the Battle of Lone Pine on Gallipoli. There are two other recovery centres in Queensland: 3 Brigade in Townsville and at 7 Brigade in Brisbane. All are able to deliver the necessary care from under the one roof to ensure continuity, timeliness and supervision during what can be a very stressful period for both the soldiers and their families.

**ANZAC BISCUITS**

**The** makers of ANZAC Biscuits, UNIBIC, went into receivership in January and it seemed that this iconic biscuit would disappear into the black hole where so many other Australian goods have gone.....we will probably never know just how close it was, however, a group of the former company managers and staff have formed a company to continue the brand.....I wonder what the original Diggers would say...?

### DVA NOTES

**Dave Kearns** and Brian Selby have completed a 3 day course specifically organized and run by DVA SA. There were 8 other attendees from various ESOs in SA and Tasmania.

The course, "Men's Peer Health Education" is being run in all regions of SA, the aim being to establish accredited men and women within the veteran community to be available for some advice in the event of personal problems arising unexpectedly.

The premise is not as a diagnostic source, but, to be a first line of immediate help for veterans and their families should a mental health, or, other health matter become apparent, with information on "who to contact" and "where to go to". There are now 27 accredited members able to be contacted in the SA and Adelaide metro areas

*Forgive your enemy, but..... Remember the bastard's name.....Amen.*
