## 'TIS THE SEASON....

2014 is almost finished...

In Iran and Iraq, we have seen  
some of the most horrific  
atrocities in history carried out by  
people who have no regard for  
humanity other than their own  
kind..

There is no acceptable  
explanation for these despicable  
muslim jihad extremists who are  
also residents among us....

**Merry Christmas**  
To all our Members,  
Families and Friends

We again have our Armed Forces  
in harm's way in the Middle East.

For the first time, some of the Arab  
states are also engaged in the  
containment of these murderous  
extremists.

There can be no doubts remaining  
that Australia has been far too  
generous and trusting with our  
permission to enter the country.  
"We have to go **back again** to finish  
the job"... !!!

Aust Defence Minister Johnston

## ANZAC CENTENARY

**On 1 November, 2014,** the first of the Australian commemorations for the 100th Anniversary of ANZAC was conducted at Albany WA. This is the date in 1914, that the first of the Australian and New Zealand troops embarked on 10 ships, escorted by 3 RAN ships, for Egypt, from that port. The Australian Light Horse Regts were onboard and destined for glory in the Sinai and Libya.

**Contrary to his version,** Lawrence of Arabia was not the first to Damascus; Riding day and night, over 450 miles of sandy desert, in 12 days, 12,000 Australian Light Horse soldiers were about to commence the last and greatest ever use of massed cavalry in our history. The 10th Light Horse stopped to at Barada Gorge. Overlooking Damascus city. The Turks and Germans were

destroying all arms and ammo before they attempted to evacuate. At 0400 hrs, 1 November 18 the 10th LH began the advance into small arms fire from the defending Turks. At great speed, they charged the city walls, overwhelming the Turks and continued into the city centre....the city capitulated, however, the defending Turkish commander, Mustafa Kemal, of Gallipoli fame, escaped.....these LH soldiers

### CONTINUED ... ..

included some survivors from the slaughter of The Neck and Lone Pine on Gallipoli where the Light Horse was decimated by the three poorly planned charges in 1915... Mustafa Kemal and his staff were also the defenders there. The LH men now in Damascus made it quite clear that this victory was not only for them, but, for the LH men who had been lost in 1915... *Lawrence made no mention of the Australians in his account of the battle.....*

There were 50,000 horses sent to Egypt and Europe in WW1.

The majority of the horses were Walers, a large, strong, durable horse bred for the cavalry and also suitable for artillery units. Of those 50,000 horses transported, only one of them was returned after the war. The order was given that the horses were to be handed over to Egyptians for their use.....such was the disgust at this wrongly conceived demand, many LH men euthanized their mounts rather than hand them over to a life of utter cruelty as beasts of burden. No charges were laid.....

This breed of horse was in continual service long after WW1 and was the mainstay of all Australian horse drawn Artillery Regiments till the mechanisation of these units in 1939.....

The only horse returned home was "Sandy", the mount of General Sir William Bridges, the first C in C of the AIF who was KIA at Gallipoli, and the head is preserved at the AWM in Canberra.

The Charge at Beersheba is another story to be related in a future edition .....Ubique....

## PENANG AND SARAWAK UPDATE

The decision has been taken, on behalf of NMBVAA Inc members, to adopt schools in the remote ulu areas around Bau, Stass and Serikin in Sarawak. The plan is to provide funds to a school in each area on an annual schedule to purchase writing materials, exercise books, and if needed, mats to add a degree of comfort for the children. The Sarawak Education Dept will oversee the purchases. There are several independent checks that will make sure the objectives are achieved. The schools are unlike any we are familiar with....remoteness and a diverse group of children can be

Orang Asli, Iban and Dyak origin. There are no other such funding programs in action originating from Australia for this purpose. A long overdue bond has been confirmed with the Penang Veterans Association after the recent 50th Anniversary Tour to the Peninsula and Sarawak, and a partnership proposal has been tabled for the PVA and NMBVAA Inc to design a suitable war memorial to commemorate the Malayan Emergency and the Indonesian Confrontation to be sited near the Penang War Memorial Cenotaph...

A Australian National Flag and the SA State Flag were presented to some surviving Royal Malaysian Ranger soldiers and Iban Trackers who were with 3RAR and 4RAR in 1964-66 during the Indonesian Confrontation. The flags were donated by Dr Andrew Southcott MP member for Boothby and SA NT Patron, and the member for Mitchell, Corey Wingard MP. Very generous hospitality from the Sarawak Tourism Board at the Kuching Hilton saw 14 members sit down to lunch. Tentative plans for a memorial in Kuching are in the pipeline.....*Bagus*

## 50th Anniversary of Deployments Tour

In August and September, members from SA & NT visited several sites of significance to Australian Army deployments during the Malayan Emergency and the Indonesian Confrontation on the Peninsula, Sabah and Sarawak. Poppies provided by SA RSL were placed on 2RAR grave sites at Taiping on the Peninsula, at Bau, Stass and Bukit Knuckle in Sarawak and at the site of the POW camp at Sandakan in Sabah. A reunion was also held with surviving Iban Trackers and Royal Malay Ranger soldiers in Kuching who worked with 3RAR and 4RAR during the Indonesian Confrontation

Story and pics attached.....

## BORNEO SCHOOLS

Confirmation has been received from the Bau District Education Dept that the first three schools are **SK Serabak, SK Stass** and **SK Suba Buan**. The next step in the protocol chain is to confirm the method of funds transfer; at this time we will tx electronically to a preferred account with the Sarawak Tourism Board as one of the checking elements to ensure correct dispersion for us....

## RSL SA

The 10th Bn AIF was one of the first Australian Infantry units formed at the outbreak of WW1. Raised in SA, it was the first AIF unit to land at Gallipoli ..... two members; L/Cpl Philip Robin and Pte Arthur Blackburn are believed to have pushed further inland than any other Australians. L/Cpl Robin was KIA on 28 April and later as a commissioned officer, Arthur was awarded the VC at Pozieres.....

The SA NT Virtual Memorial was launched on 8 August. It is the major Centenary of ANZAC initiative by RSL SA. The digitised memorial serves as a source of accessible statistics in the animated displays. Potential contributors can contact Sharyn Roberts on 08 8100 7300 or email at sharynr@rslsa.org.au Site access is via; [www.rslvirtualwarmemorial.org.au](http://www.rslvirtualwarmemorial.org.au)

## Disgraceful Order

It is outrageous that a former serviceman has been ordered to remove the Australian flag from his front yard in Darwin..... the "Body Corporate" has unbelievably taken the stance that "It is required to Keep the Peace" ....how unpatriotic can these people be to even consider such a directive; those foreigners who protest about flying our flag should seriously consider their stupidity Don't need their baggage here..

## TPI News

Every year, the increase of the 2.7% we have been denied amounts to a loss of approx \$3,300 to the TPI Special Rate and approx \$1200 to the 100% General Rate while all other DVA disability pensions also suffer a pro-rata loss. We want indexation parity restored between Veteran's disability pensions and the Age and Service invalidity pensions. We only want Justice. Indexation parity is needed to align DVA with increases in community incomes.
